

**Ranger GoCarts™ Model: RCD-1500****Description: Hydraulic vehicle positioning jacks****Sold in sets of two**

Take advantage of precious floor space by moving your vehicles against a wall or into a tight space or corner with the help of GoCart car dollies. GoCart vehicle positioning jacks allow one person to effortlessly move autos, trucks, boats, trailers, lawn mowers and tractors, jet skis, motorcycles, airplanes, or other wheeled and recreational vehicles with ease.

These heavy duty auto carts feature a quick-action hydraulic foot pump to lift any car or light truck in seconds providing instant mobility in any direction. A multi-position locking pin secures the load after the unit is raised to the required height. Reinforced, non-skid brushed aluminum rollers ensure a solid and stable tire support and a low center of gravity makes them safe and stable during use.

Each GoCart auto dolly features a two-inch tubular steel telescoping main frame and 1-1/2" x 1/2" solid steel caster bars for superior strength and durability. Precision bearing, multi-directional free-swivel casters allow effortless mobility and direction changes. Fiber-filled phenolic resin wheels are non-marking to help protect delicate flooring surfaces and are resistant to corrosion from oil, water, grease and commonly used acids or solvents and. Lightweight GoCarts retract and stow for compact storage and can be loaded into the trunk of a car or on a tow truck for easy transport.

- Heavy-duty steel construction
- Available in sets of two or four
- Durable powder coat finish
- Flat free polymer wheels for easy rolling
- Non-skid polymer rollers resists load slippage
- Expandable frame accommodates variable tire sizes
- Move heavy loads with confidence and ease
- Load rating each: 1,500 lbs. / 680 kg.
- Load rating set of four: 6,000 lbs. / 680 kg.
- Lifting mechanism: hydraulic foot pump
- Tire width capacity: 12" / 305 mm.
- Wheel size capacity: 8" to 24"
- Tire diameter capacity: 15" – 28"
- Casters/frame height: 6" / 152 mm.
- Casters diameter: 4" / 102 mm.
- Stowed dimensions: 21" x 24" / 533mm. x 610 mm.
- Measurement from end of caster to handle: 18" / 457 mm.
- Unit weight: 42 lbs.
- Mobile storage rack: optional

Optional Storage Rack
