Rapidly Balance Most Motorcycle Wheels

This optional universal motorcycle wheel clamp kit comes with a shaft and adapters to accommodate motorcycle and ATV wheels with hub assemblies up to 9.5" wide. It quickly installs on Ranger [DST-2420](#) and [DST-64T](#) wheel balancers equipped with a 36 mm shaft. The adapter kit is designed to balance motorcycle wheels with center-hole diameters from 5/8" to 1.25". Kit includes universal wheel clamp, shaft, centering cones, spacers and spin-on nut.

Features
