## Place Between Four-Post Lift Runways for Safe Frame Engagement

This optional 3,000-lb. capacity sliding jack platform grants you the versatility and convenience you've been looking for and a great addition to your [four-post lift](#). Thanks to the easy-slide design, the precision grooves allow the jack platform to be positioned anywhere under a vehicle, making this optional sliding jack perfect for wheel and suspension work.

## Features

- 3,000-lb. capacity
- For use on four-post lifts, lube racks or quick-lube pits
- Heavy-duty steel construction and low-profile design
- Works with all four-post lifts
- Sits on runways
- Used with bottle jacks
- Great option for occasional access to wheels and brakes
