Steel Lift Pads with Adapter

If your BendPak [two-post lift](#) is seeing an especially large amount of action, then you need these hardened-steel lift pads to provide you with additional stability on all vehicles. The flanged edges grip the chassis for an extra-secure hold, so you waste less energy worrying about working under heavy machinery and more time enjoying it. Includes 60 mm adapter pin. **Does not fit GP-7 series.**

Features

- 60 mm Adapter Pin included
- Heavy-duty steel construction
- Powder coat finish
- Flanged edges for superior hold
- Not compatible with GP-7 two-post lift series
