The Benchmark of Quality™

This is my BendPak

There are many, but this one's mine.

"If you're going to put your wheels through hell, be sure you've got the rock-solid muscle to bring them back to life. BendPak lifts are built as ruthless as the road itself. Never compromise."

– Bill Goldberg, Professional Athlete & TV Host

 @Goldberg

Medium-Duty Clear Floor

SERIES FEATURES:

- Wide or narrow configuration
- Exclusive "Tru-Metric" arms
- Single-point safety release
- Dual "Direct-Drive" cylinders
- Electric / hydraulic power
- 17" x 19" A36 steel base plate
- UHMW polyethylene bearings
- Dual 3"- spaced safety locks
- Automatic arm restraints
- Heavy-duty aircraft cable
- Oversized sheave diameter
- Padded safety-shutoff bar
- 8-piece truck and van adapters
- Triple-telescoping / low-pro arms
- Contact pads
- Stackable adapters
- Single-piece columns
- Triple-telescoping arms
- Accommodates a wide variety of vehicles assemblies
- Safety locks in each column

Lifting Capacity - 7,000 lbs.
Max. Lift - 73"
Width - 145" / Height - 145"

Lifting Capacity - 10,000 lbs.
Max. Lift - 73"
Width - 132" or 145" / Height - 145"

Lifting Capacity - 10,000 lbs.
Max. Lift - 73"
Width - 132" or 145" / Height - 145"

XPR-10A Arms shown with optional foot guards

XPR-10-168
Clear Floor Extended Height
XPR-10A-168
Asymmetric Extended Height

Features bolt-on top
extension for added
24" clearance

ACCESSORIES:

Steel Lift Pads

Frame Cradle Pads

Offset Adapters

Air / Electric Work Station

XPR-10A Shown with air / electric work station and foot guards

FREE truck and van adapters come standard with all BendPak 2-post lifts

Medium-Heavy Floor Plate

SERIES FEATURES:

- Adjustable width design
- Dual hydraulic lifting cylinders
- Single-piece columns
- Single point safety release
- Drop-end arms
- Triple-telescoping arms
- Electric / hydraulic system
- UHMW polyethylene bearings
- Dual 3"- spaced safety locks
- Automatic arm restraints
- 8-piece truck and van adapter
- Adjustable wide or narrow drive-thru configurations
- Versatile drop in contact pads
- Durable powder coat finish
- Open top design
- Large steel base plates
- Heavy-duty 3/8" equalizer cables
- Rugged steel construction

Adapter storage

Oversized A36 steel base plates

Single point safety release

FREE truck and van adapters come
 standard with all BendPak 2-post lifts

4-Post Light-Duty

SERIES FEATURES:

- Runways feature non-skid surface
- Single hydraulic cylinder under ramp
- Fully enclosed lifting cables, safety locks, & sheaves
- Pneumatic push-button safety release
- Features 1-1/4" sheave axles
- Features heavy-duty 3/8" aircraft cable
- Internal "anti-sway" slider blocks in each column
- Electric / hydraulic power system
- Oversized sheave diameters
- Rugged, self-lubricating cable sheaves
- Multi-position safety locks in columns
- Dual-position power unit locations
- Redundant slack-cable safety latches
- Fully adjustable lock leveling stops
- Drive through ramps option available
- 36" approach ramps available
- Durable powder coat finish
- Rugged steel construction

Shown with rolling bridge jacks

- Single hydraulic cylinder
- Simple push-button lock release
- Maintenance-free power system
- Easy-to-reach operator controls

Integrated hydraulic flow restrictor

Non-skid approach ramps

Full floating galvanized turn plates

Non-skid runways

Optional bridge jack

Dual-hub cable sheaves

Recessed full floating slip plates

Durable powder coat finish

- Adjustable height locking positions
- Stainless steel lifting cables
- Spring-loaded safety locks

This is my BendPak

***There are many,
but this one's mine.***

"Nothing I do or drive is stock. Everything that comes out of my shop has to be the best. That's why me and my crew use BendPak products to customize every vehicle we touch. It's a name I trust."

— Jesse James, West Coast Choppers
www.westcoastchoppers.com

BendPak®
PROVIDING AUTOMOTIVE SERVICE SOLUTIONS

Quatra Scissors

SERIES FEATURES:

- 12,000 lbs. lifting capacity
- Extended runway
- Durable powder coat finish
- Multi position runway work steps
- Non skid runways for sure grip
- Electric / hydraulic power system
- Integrated velocity fuses for cylinders
- Power console with simple controls
- Open center design
- Automatic leveling system
- Pneumatic push button release
- Lubricated bearing on all pivot points
- Rugged steel legs
- Can be flush mounted or recessed
- Easy to use and understand
- High efficiency hydraulic power unit
- Equipped with rear slip plates and galvanized front turn plates
- Straight up vertical lifting

PL-7000X

Minimum footprint allows multiple installations in limited space

- Overhead power unit provides smooth quiet hydraulic operation
- Power unit and controls integrated within the lift structure
- Automatic safety lock

Wide deck platform accommodates pickups, vans, and cars

Maintenance-free composite carriage bearings and self-lubricating chain rollers

Heavy-duty lifting chains

Designed for installation on typical parking surfaces

Wide-base plate mounts directly on ground or asphalt

Rolling Bridge Jacks

SERIES FEATURES:

- 4,500-25,000 lbs. lifting capacity
- Versatile drop in lifting pads
- Multi piece adapter set standard
- Air hydraulic power unit
- Stackable adapters
- Automatic safety locks
- Wheel frame assembly for easy mobility

Portable Column Lift

SERIES FEATURES:

- 16,500 lbs. column capacity
- 66,000 lbs. maximum capacity set of 4
- 99,000 lbs. maximum capacity set of 6
- 3 modes of operation
- 70" lifting height for tall mechanics
- Extended 15" forks for wide tires
- Electronic self diagnostics functions
- Independent column control stations
- Trouble free hydraulic lifting system
- Low power consumption
- Separate key lock security
- Fuse protected
- Sealed roller bearing on carriages
- Tight turning radius
- Simple Operation
- Operator monitoring and automatic leveling control
- Automatic independent safety locks

Quick-disconnect plugs at each column

Automatic leveling control

Lower power consumption

Fuse protected

Separate key lock for each control box

3 modes of operation

Trouble-free hydraulic lifting system

User friendly controls

Low profile fork angle for easy positioning

Multi-width wheel forks with locking pins

Hydraulic jack wheel assembly allows a tight turning radius providing easy mobility

Air Compressors

SERIES FEATURES:

- 80-Gallon vertical tank
- 3-Cylinder / 2-stage pump
- ASME rated tank
- Siemens™ electric mag-starter
- Fan-type flywheel
- Fully-enclosed belt guard
- Oversized roller bearings
- Forged ductile iron crankshaft
- Forged aluminum alloy pistons and connecting rods
- 100% cast iron block
- Cast iron cylinders and heads with deep cooling fins
- Forced-air after cooler
- Oil sight gauge
- Automatic pressure switch
- ASME rated overload pressure safety valve
- Pressure gauge with valve
- Oversized replaceable air filters
- Automatic start / stop

5 HP MODELS

LS580V-601 / 208-230 V / 60 Hz / 1 Ph
LS580V-603 / 208-230 V / 60 Hz / 3 Ph
 Horsepower - 5 Hp
 Maximum CFM - 22.8 / 175 psi

7.5 HP MODELS

LS7580V-601 / 208-230 V / 60 Hz / 1 Ph
LS7580V-603 / 208-230 V / 60 Hz / 3 Ph
 Horsepower - 7.5 Hp
 Maximum CFM - 28.5 / 175 psi

Pump cutaway

The 100% cast-iron TRI-MAX™ Series pump features simple splash lubrication for total reliability and a “W-3” finned cylinder configuration that provides 360° cooling. Lower RPM's and large-diameter finned copper tubing between stages, means they will run cooler, which ultimately achieves maximum compressor efficiency with less moisture contamination.

Large “Finned” copper tubing helps keeps air cool between stages and to tank

Cast iron heads

Oversized balanced flywheel features large fan blades that forces cool air on the compressor pump

Deep cooling fins on the cast iron cylinders help maintain a lower operating temperature

Large mass-air filters

Tri-Max²
Extreme Duty
 Industrial-Grade Air Compressor

Wheel Service

Ranger's NextGen™ Tire Changers - Tire Shop Tested™

NextGen™ SERIES

All NextGen models are loaded with design enhancements that make the technician's job easier. Sturdy frames, rigid 45mm hexagonal vertical shafts, and hardened-steel horizontal outrigger support arms eliminate flex during all tire service procedures reducing the chance of damage to expensive wheels. Bead seating and tire inflation is simple and effortless with Ranger's exclusive TurboBlast™ portable bead seating system. High-torque electric turntables, increased speed and reversible direction means quicker tire removal and installation. Industrial-grade pneumatic control valves feature die cast and machined bodies constructed from zinc and aluminum for increased service life and performance at the highest level possible within almost every imaginable working condition. Important wheel service accessories come standard like a large soap bucket with brush and a multi-piece plastic wheel protector kit that includes turntable jaw covers, bead-breaker blade boots and specialized mount / demount head covers to help protect delicate wheels.

Wheel Service

RWS-55TD FEATURES:

- Handles tires up to 68" in diameter
- Large water tank
- Foot operated wheel lift
- 500-lb. capacity
- Heavy-duty all steel construction and powder coated finish
- Includes built-in drain

RV-80L FEATURES:

- Simple, one-man operation
- Heats treads, shoulder and sidewall
- Cures the patches and inner tire lining
- Rotating adjustable frame
- Adjustable height tower
- Contoured inner and outer curing heads
- Cures both patch and plug at the same time

TS-150 FEATURES:

- Adjustable height tire spreader
- Air-powered
- Perfect for tire inspection and repair
- Heavy-duty rollers allow tires to rotate freely
- Heavy steel construction
- Wide-base design for stability
- Powder coat finish

RL-8500

DST-2420 FEATURES:

- Dynamic, static, & performance alloy settings
- Automatic braking
- Self calibration function
- Manual or automatic start
- Low RPM balancing speed
- Ergonomic control board

CRT380R FEATURES:

- ProSpec® Alignment Software
- Cordless Bluetooth® sensors
- Superior screen graphics
- Self-explanatory user interface
- Self-centering wheel-clamp adaptors
- Rolling or lifted run out modes
- Vehicle adjustment illustrations

RL-8500 FEATURES:

- Quick-Change Adapter-Plus system
- Works on all cars or trucks, both foreign and domestic
- Massive tapered spindle bearings
- "Splash-lube" oil feed system provides a constant flow of oil
- Easily change arbor speeds in seconds

Jacks & Lifting

INFORMATION:

Ranger's wide-array of multi-purpose floor jacks just keeps getting larger and more diverse. Our current line of floor jacks has maximum capacities ranging from 2,000 to 55,000 lbs. and come in a variety of styles like quick-pump and low-profile. No matter which one you choose, Ranger floor jacks offer incredible lifting power and top notch construction that you can count on to never let you down. Our impressive line of floor jacks is carefully designed to accommodate a wide spectrum of weight capacities and lifting applications, easily lifting just about anything that needs service.

Motorcycle Lifts

RML-600XL FEATURES:

- Constructed out of 12-gauge steel
- Pneumatic lifting cylinder
- Durable powder-coat finish
- Adjustable front wheel vise
- Drop-away rear wheel deck
- Easy ramp(s) removal
- Front and side extensions standard

RML-750HD FEATURES:

- Built-in retractable swivel casters
- Full travel automatic safety locks
- Single hydraulic lifting cylinder
- Heavy 12-gauge steel construction
- Side extensions come standard
- Air or hydraulic pump operation
- Multiple locking positions

RML-1100 FEATURES:

- Perfect for motorcycles and ATVs
- Works on the ground
- Works as a platform motorcycle lift
- Low-profile design
- Includes two adjustable saddle adapters
- Harden ACME screws for precise lifting
- Lightweight alloy construction

Tool Storage & Benches

INFORMATION:

Ranger Toolboxes and tool chests are gaining popularity by the day in automotive shops and private garages. That's because our tool storage solutions are built to the strictest specifications, featuring high-grade 16- and 18-gauge steel construction, durable internal cages, high-quality welds, all the best drawer hardware and a masterful cherry-red powder coat finish that looks better than any stock paint job on the market—and it'll last forever to boot.

Without question, for your projects to get completed on time and to your satisfaction, you require a dedicated work area. So Ranger developed a line of large, heavy-gauge steel workbenches, specifically designed to handle the physical rigors of being in a busy garage or shop. We currently offer three sizes and styles to suit your needs and space restraints.

Shop Equipment

INFORMATION:

Let Ranger Products lighten the load with our considerable line of high-quality rolling equipment. All Ranger Carts and Dollies are made from high-gauge steel and employ only the best casters for easy maneuvering. Our service carts, chassis-mount vehicle dollies, low-profile automobile carts and rolling adjustable work tables come fully equipped to make your day in the garage infinitely easier. Don't lift or carry—roll with Ranger!

Ranger's industrial shop presses offer you the versatility of professional-grade hydraulic force, whether you're at the shop or in your own garage. Among other operations, all Ranger Hydraulic Presses are ideal for the removal and installation of gears, bushings and bearings—so you can bend, straighten, flatten, crush, press, shape, push, pull, lift and spread like you were born doing it.

RST-500ES FEATURES:

- Adjusts to fit all vehicles
- Rubber foot pads to hold load securely
- Straddles inner fender wells
- Precisely positions engine for easy gear box and transmission removal
- Perfect for 4 & 6 cylinder engines
- 1,500 lb. capacity

RES-1TF FEATURES:

- Folds upright to conserve space
- Heavy steel construction
- Long rubber-grip handle
- Head swivels 360° for easy positioning
- Heavy-duty swivel casters
- Slotted adjustable saddle permits
- Neck is reinforced for extra strength

RSC-2TF FEATURES:

- Designed for shops with limited space
- Folds for easy storage
- Heavy-duty steel casters
- Neck is reinforced for extra strength
- Wide base for maximum stability
- Telescoping boom provides 4 positions
- Heavy steel construction

**RST-500ES
Engine Support**

\$109

Holding Capacity - 1,500 lbs.
Screw Travel - 18.75"
Width - 26.5" - 49.5"

**RES-1TF
Engine Stand**

\$200

Holding Capacity - 2,000 lbs.
Front Width - 31" / Rear Width - 27.5"
Height - 37.5" / Length - 41"

**RSC-2TF
Folding Shop Crane**

\$371

Boom Length - 40" - 63"
Boom Capacity - 1,100 - 4,400 lbs.
Boom Height - 80" - 93"

Manufacturing Superiority

BendPak recognizes the manufacturing process as our moment of maximum influence. When we ship a piece of equipment, we need to know that the product that left our manufacturing complex was the best it could be. That's why we demand nothing short of the very finest in facilities and machinery. Our primary factory houses development and manufacturing for medium and heavy-duty lifting products and wheel service models. At just over 300,000 square foot it's a facility designed for maximum efficiency and safety, where we employ the best steel fabrication techniques in the world.

Main Production Facility

MEDIUM AND HEAVY-DUTY PRODUCTS

BendPak's second mega-sized manufacturing is used primarily for manufacturing light and medium duty lift products, select parking systems, and select vehicle repair tools and equipment. The multiplex factory houses state-of-the-art equipment including numerically-controlled turning and milling equipment, automated welding systems and full-capability services like comprehensive metallurgy testing, heat treatment, automated powder coating, and other specialty operations. The facility also houses assembly and packaging operation centers and product development testing labs for BendPak's growing customer base around the globe.

LIGHT AND MEDIUM-DUTY LIFT PRODUCTS

Our multi-department manufacturing complexes have allowed us to expand machinery and employees and triple our daily production capacity. All BendPak employees are Q.C. trained and follow rigid ISO-9001 guidelines. Every day, more than 700 employees around the world dedicate themselves to putting our core values into action. Safety is first—it's our company's top priority, followed closely by environmental responsibility, cost-efficiency, quality, customer service and accountability for all departments. These principles guide our highly skilled workforce towards BendPak's unified vision.

Across the globe, BendPak's facilities encompass over 600,000 square feet in total and consist of vertically integrated manufacturing, operations and logistics facilities. Each location follows strict guidelines as outlined by ISO-9000, further supporting our position as a premier global manufacturer. At BendPak, we ensure that our offshore manufacturing is no different in approach, standards, quality, inspection or packaging from our domestic production. These facilities are audited year round and undergo systematic evaluation of documented quality programs such as TUV, ANSI/ALI ALCTV, CSA, UL and AS/NZS 1418.9. The programs themselves are audited quarterly, regardless of the facility location, to ensure continued compliance with all applicable standards.
